

Energy Metering and Management

Tuesday, June 20

Join AIRAH's WA division for a presentation on energy metering and management.

Rob Engelbrecht, Affil.AIRAH, Sales Engineer at Aquip Systems, will discuss how ultrasonic flow meters are being used as thermal-energy meters for main chiller systems, the economics for retrofitting existing building, and the latest in sub-metering ultrasonic meters to provide a total solution for thermal-energy metering projects.

A sponsored presentation will be presented by Nicholas Heydon, Affil.AIRAH, Australasian Channel Manager for Optergy. Through a dealer network, Optergy aims to provide the global market with scalable building automation and energy management systems.

Ninety-seven per cent of metering systems have errors, and report incorrect information. Nicholas will look into why we can get these systems so wrong, and what can we do to fix them.

Rob Engelbrecht, Affil.AIRAH, Aquip Systems

Nicholas Heydon, Affil.AIRAH, Optergy

Date: Tuesday, June 20

Time: 4pm registration for a prompt 4.15pm start. Event runs until 5.20pm and is followed by light refreshments.

Venue: State Library of WA, 25 Francis St, Northbridge
Great Southern Room, fourth floor. Visitors must collect a pass from the reception desk, take a lift to the third floor and walk stairs to the fourth floor. Parking is available beneath the building in the No. 11 Perth City Council carpark, entrance from Francis Street.

Cost: Free for members, \$60 for non-members

RSVP: Monday, June 19. You must be registered to attend.

*AIRAH recommends that members undertake 150 hours of CPD over a three-year period, with a minimum of 30 hours in any one year. For more information please refer to www.airah.org.au/CPD
