WHAT IS HVAC&R?

Find your future in the invisible industry that’s all around you!

HVAC&R is a defining feature of our modern existence, but few people outside the industry talk about it. It keeps us comfortable and productive. It even keeps us alive.

We use HVAC&R to...

- Heating, Ventilation, Air Conditioning & Refrigeration
- Get places
- Keep drinks cool on a hot day
- Stay in touch
- Define our cities
- See art at the National Gallery
- Enjoy some smashed avo for brunch

+ much more!

REFRIGERATION: THE NUMBER ONE ACTION TO REVERSE GLOBAL WARMING

PAUL HAWKEN, PROJECT DRAWDOWN

Explore your opportunities at www.airah.org.au/careers
In Australia alone, HVAC&R employs more than 298,000 people – and it’s still growing. Join an industry that ensures we have healthy and productive places to live, work and play.

Offices, schools, cars, homes, hospitals, shopping centres, restaurants and even the International Space Station all need good HVAC&R.

Get ahead in your HVAC&R career.
Visit www.airah.org.au/careers to learn more about the industry, access resources, find helpful links and receive information on AIRAH’s free student membership.
